Why Should Dr. Leonard Anglis Provide This Treatment For Your Loved One?

As one of the trailblazers and innovators of Implant Dentistry in our area, Dr. Anglis has trained and assisted other dentists and specialists in the delivery of dental implants and traveled from office to office placing dental implants for his trusted colleagues' patients and family members. Dr. Anglis' Dental Implant Study Club was the first in the area to encourage detailed, complex treatment planning for dental implants and brainstorming sessions to solve the most complicated dental problems for patients.

There is no one more dedicated to successful treatment!

Further, **Dr. Anglis** has traveled to study in Portugal and in Spain with the originators and creators of state-of-the-art tooth replacement systems, and has accumulated **over 3000 hours of continuing education** at this point, so there is nothing he has not seen and no problem he has not solved!

Dr. Anglis has placed thousands of dental implants over the past 30 years for patients from Indiana, Illinois, Michigan, Florida, South Carolina, New Jersey, and New York!
